## **NEWS RELEASE**

**March 31, 2009**

**Contact:** David Miller, city engineer, 337-8559

### **City to temporarily close Berry Drive between Highway 76 and Westwood Drive April 6**

As a result of the new Fall Creek Road Extension Project, Berry Drive between Highway 76 and Westwood Drive will be temporarily closed beginning Monday, April 6.

The Fall Creek Road project is creating a new north/south arterial roadway that will connect Highway 76 to Roark Valley Road. When completed, Fall Creek Road will be at an elevation that prevents the existing section of Berry Drive from being reopened.

A new roadway connection will be provided to the neighborhood that will be a realignment of Berry Drive. However, that new connection will not be opened until the entire project is complete, which is now scheduled for spring 2010. In the meantime, residents wanting to drive east and west through the neighborhoods will need to use Highway 76 or Roark Valley Road to travel across the neighborhoods.
